### MONTANA SECRETARY OF STATE

LINDA McCULLOCH

### **MEMORANDUM**

Date:

January 23, 2012

To:

Members of the Senate State Administration Committee

From:

(Qorge Quintana, Chief legal Counsel, Secretary of State's Office

Re:

Responses to questions from the January 21st hearing on SB 68

I have attempted to answer the questions posed to me during the hearing on Senate Bill 68. Please let me know if I may be of further assistance.

Q: Is it under the purview of the Secretary of State's Office to put ballots in normal sized envelopes with one more fold so voters may use a 44 cent stamp or forever stamp instead of 64 cent postage?

A: The Secretary of State's Office prescribes the language and form of the envelope. It is slightly larger than a business size envelope so that the secrecy envelope will fit into it. That size is used by most counties, although some counties use a larger size so that there are fewer folds in the ballots. The local election administrators control the size of the envelopes.

The envelope is already prescribed to say where the postage goes: "place sufficient postage here (1st Class").

Q: How many vote by mail envelopes are sent in throughout the state in a given election?

A: In the 2012 General Election, 314,329 absentee ballots were sent to Montana's voters. 289,920 absentee ballots were received, which constitutes 58.93% of the total votes cast in the state.

Please see the attached spreadsheet under the column "All Absentees Received" for individual counties.

Q: How much money is taken out of county budgets to cover the postage costs for people who did not put the proper postage on their envelopes?

A: According to our statewide survey of election costs, the counties paid \$6,107.72 combined for postage due on returned ballots.
